SUPPORT ALONG THE JOURNEY

In addition to offering great products, we encourage women to access Northside’s support services through the Network of Hope, Breast Health Coordinators and the Cancer Support Community. We want to connect you to resources that will help make life with cancer a little less scary.

HELPFUL TIPS:

• Many of our products are enhanced by a custom fitting. We strongly encourage women to call and make an appointment for consultation and fitting.
• Northside can submit insurance claims for products that have pre-approved insurance coverage and a physician’s order.
**Compression Therapy**
Swelling can occur as a side effect of surgery, radiation or removal of lymph nodes. For many patients, this swelling is known as lymphedema and may require compression. Compression garments are made out of stretchy material designed to prevent swelling and fluid accumulation in the arms and legs. Patients will consult with a certified fitter to ensure the best results. A Woman’s Place offers a wide variety of compression products including sleeves, gloves and hosiery.

“The compression fitters helped me immensely. It was so nice to have their expertise; they took the time to review choices with me and gave me important tips regarding care instructions. I can’t believe the difference that the right compression garments make.”

**DEDICATED TO YOU**
At A Woman’s Place, we are here to help you find quality maternity and oncology products that make you look and feel your best. We are committed to bringing you:

- **Expertise.** The products we offer have been carefully selected from medical experts and staff at Northside Hospital for quality, safety and function.

- **Customized Products.** Many of our products are enhanced by a custom fitting. Our custom fitters can help make sure each product fits you just right.

- **Compassionate Service.** We understand how certain moments in a woman’s life deserve special attention and sensibility. We take the time to get to know you because you deserve the best service possible.
ONCOLOGY PRODUCTS: SUPPORT THE BODY & SOOTHE THE SOUL

Women undergoing treatment for cancer undergo changes that impact their physical, mental and emotional health. We use our expertise to help them find items that will give them comfort and confidence without sacrificing the style they love.

Custom Breast Prosthesis

Breast cancer patients can find many options, including custom breast prosthesis, which uses a breakthrough technology to mirror an existing breast in size and shape. Ready-to-wear and attachable breast forms also provide symmetry and balance. Attractive mastectomy bras and camisoles complement how you look and feel.

Without the practical help and emotional support of the Northside Lactation Consultants, I would have given up breastfeeding after two weeks. They gave me a range of workable strategies and were always encouraging, capable and knowledgeable.

MATERNITY AND LACTATION NEEDS

Preparing ahead for motherhood can give you more time to enjoy your baby after delivery. We offer a wide array of maternity products to take you from pregnancy to motherhood.

PRODUCTS & SERVICES

- Nursing apparel
- Prenatal and nursing bras
- Abdominal/back supports
- Maternity compression hose
- Breast pumps
- Nursing pillows
- Nursing aids
- Lactation consultations

LACTATION SUPPORT

“Without the practical help and emotional support of the Northside Lactation Consultants, I would have given up breastfeeding after two weeks. They gave me a range of workable strategies and were always encouraging, capable and knowledgeable.”

Many women choose to breastfeed their babies. While a precious gift, breastfeeding is often a learned skill. At A Woman’s Place, you’ll benefit from expertise and products that will help you get started. Breastfeeding supplies such as nursing bras are fitted individually. You can also find a wide selection of fashionable and comfortable nursing loungewear.

We’re here to answer your questions, too. Our lactation consultants bring knowledge about breastfeeding to answer your questions and guide and support you. Call our free advice line at (404) 303-3329 to speak with one of our certified lactation consultants. You can also schedule an outpatient consultation.

PRODUCTS AVAILABLE

- Mastectomy forms
- Wigs
- Lumpectomy partial forms
- Scarves/hats
- Compression garments
- Skin care products

Custom Breast Prosthesis

Breast cancer patients can find many options, including custom breast prosthesis, which uses a breakthrough technology to mirror an existing breast in size and shape. Ready-to-wear and attachable breast forms also provide symmetry and balance. Attractive mastectomy bras and camisoles complement how you look and feel.

“The fitters are patient and compassionate—they really took their time with me. I know that A Woman’s Place is there to help me feel and look my best.”

Wigs & Accessories

For women who will be undergoing chemotherapy, a major concern is hair loss. Trained professionals can customize the style and color of a wig to complement your natural look before you lose your hair. We’ll show you attractive ways to use scarves, and help you select hats and other headwear that fit your lifestyle.
